Republicans will talk a big game until the oligarchs say "but the free market!" Rs then mumble some Regan quote & go back to complaining.

If we want to win we will have to use government to chose winners & losers, the gov already does, we are just the losers every time.

Joe Kent: No Vaccine Databases

Battle Ground, WA - Today, Joe Kent announced his opposition to a federal vaccination database

> The passage of the Immunization Infrastructure Modernization Act by the House is a direct threat to the privacy of the American citizenry. If this legislation becomes law, then $400 million will be allocated to create a database that records the immunization records of the entire American populace.
>
> This legislation infringes on the privacy of all Americans and must be voted down by the U.S. Senate. Sadly, eighty Republicans in the House, including Jaime Herrera Beutler, voted with the Democrats to pass this bill. We need conservative representatives that will stand up for medical freedom and against the infringements on our constitutional rights. When elected to Congress, I will not vote for legislation that tramples on the privacy of the individual.

Many "free trade" theories are premised on the idea that we do not live in a political world or at least that we could somehow escape the world of politics and live in a purely economic marketplace

But if Aristotle was right that humans are political animals, that's a problem

Is Joe Biden going to send officials in to arrest a sitting Governor? Try me.

Subject the capitol police to FOIA & put body cameras on them. No secret police in the USA.

> **Kyle Becker** @kylenabecker
> The reason we don't know who shot and killed Ashli Babbitt is because the Capitol Police is a wholly owned subsidiary of the Congress. It is a secretive police force immune from FOIA and subpoena power. One might even call it Pelosi's Praetorian Guard

Every day that passes & the treatment of the January 6th prisoners, the killings of Ashli Babbit & Rosanne Boyland go unanswered it becomes easier for the state to act with impunity against its rivals.

Give the prisoners trails, release the tapes, disclose agents in the riot.

Chinese companies own roughly 90% of global rare earth mines.

They manufacture roughly 80% of the lithium ion batteries.

They are actively taking over and buying stakes in the rest of the mines.

We are handing sovereignty over to China by mandating electric.

Those of us fighting were assured that the other more sophisticated, aspects of national power would be handled by senior officers, diplomats & other well-educated experts who would only use us as a last resort. /2

As the wars drug on & the military answer was obviously not working our expert class stopped thinking & breathlessly told us we HAD to stay at war, that was the ONLY option. Using sanctions, diplomatic leverage, our economy, limited strikes somehow betrayed sacred norms /3

This is not the American dream.

We will build an economy designed to empower a parent to stay home with their children & support their family on 1 income.

We are a nation, not just an economy.

You can think Putin is a bad actor w/out screaming "deploy the troops!" & beating the war drum.

If our leaders consider deploying the military we must demand to know why. What is our national security interest? When will that objective be full filled?

No more blind faith.

The neo-cons are letting their obsession w/ war give Biden the break from his failures he's looking for, a chance to "rally the nation" in a war, wag the dog.

Let's focus on our sovereignty, taking on the CCP, fixing our economy & fighting for American families.

A simple question we all must ask any candidate or politician - will you defend individual liberties & oppose vax mandates ?

The only answer is yes. Anything else is one step closer to Australia.

Warden Kathleen Landerkin

FOR IMMEDIATE RELEASE
December 16 2021

WASHINGTON D C -- Today, Congresswoman Marjorie Taylor Greene and 13 of her colleagues in the House of Representatives sent a letter to the Washington D.C. Mayor Muriel Bowser demanding the immediate termination of Kathleen Landerkin as Deputy Warden of Operations at the Central Treatment Facility (CTF) in Washington D C.

As stated in the letter, Deputy Warden Landerkin has "demonstrated a consistent pattern of disrespect for Members of Congress and fellow corrections staff, in addition to displaying a public animus toward anyone who supports President Donald J Trump."

Landerkin has endorsed numerous statements which are blatantly anti-American and reprehensible: among others, equating Christians to the Ku Klux Klan (KKK), stating that Ashli Babbitt was responsible for being shot on January 6, labeling the President a "f**king Republican hypocritical piece of sh*t" and "a pig," abolishing the electoral college, and advocating that Speaker Pelosi punish Republican Members of Congress for objecting to the certification of electoral ballots by not seating them as duly-elected Representatives.

"Kathleen Landerkin is the Deputy Warden of the D C Jail in charge of the unit housing the January 6th pre-trial detainees She calls them white supremacists. She hates President Trump and hates anyone who supports him." **Congresswoman Marjorie Taylor Greene** said in a statement regarding her letter.

Congresswoman Greene continued, "This is the woman in charge of the atrocious conditions that I witnessed when I toured the jail after she locked me out on several attempts to conduct oversight. Kathleen Landerkin should be fired immediately."

The 14 signers of the letter strongly implore Mayor Bowser to remove Landerkin from

Great news! We've got to ask why are the Dems trying so hard for such a huge amnesty deal for those who entered our nation illegally & are benefiting from our economy.

Inflation + stagnant wages due to access to cheap labor is an assault on hard working Americans. twitter.com/ustechworkers/ …

> The guidance provided by Senate parliamentarian Elizabeth MacDonough is set to force Democrats to remove the protections from the bill, the third time the party's immigration proposals have been found to run afoul of the chamber's rules. The current provisions would have shielded immigrants from deportation for five years and would have provided a five-year renewable work authorization, available to any immigrant who arrived in the country before 2011.

When I first got involved in politics it was that I believed it should be spelled "Conservativism"

Today it's that I think the term "New Right" is ahistorical and bad.

There is nothing new about the idea that America is more than an open-air bazaar.

Sanity on immigration, trade, war, culture, etc. has been advocated by patriots for decades.

They were always marginalized by the scum that set the boundaries of acceptable discourse on the right.

Using the moniker "new right" is an abdication of respect for the people who came before who spoke truth, and allows our enemies today to brush aside our agenda as a novelty. Bad all around

I 100% support the Kellogg workers, but the reason they're in danger of losing their jobs is because their company is threatening to replace them with foreign workers.

The LEGAL immigration system is being used to hurt working-class Americans and it should be shutdown!

Bernie is right, we must protect US workers from having their jobs taken from them.

If Kellogg's wants to make cereal in Mexico, they shouldn't get to sell it in America.

We must strive to be a nation that cares about our people, not just an economy.

Bernie Sanders @BernieSanders

My message to Kellogg's is this.

You don't treat people whose families gave their lives to your company as disposable. You don't threaten to send their jobs

The bill to ban imports from China built using Uyghur slave labor is a step in the right direction.

Let's unify our nation on decoupling from the CCP & bring back US manufacturing for our working class.

This fight can bring about a great American revival of industry & sprit.

Yes, I oppose all red flag laws, I support & will fight for 2A as written. Gun laws are infringements. Constitutional carry should be a nation wide right. Abolish the ATF & NFA.

The intellectually lazy want the President to have power over Congress and the Federal government to have power over the States. It simplifies politics so much to be ruled by one elected dictator. The only thing more primitive is mob rule.

The greed & machinations of pharma / oligarchs is the most obvious but think of the ordinary ppl who made "compliance" into a religion.

That religion is now unraveling, unfortunately the likely result is the gambler's fallacy - doubling down hoping to win big despite the odds.

The most recent parallels I can draw is the war on terror, a noble start, then lies followed by failure followed by lies to support greed once the lies were exposed the system could only offer more of the lie until it all came unraveling

It doesn't have to be this way

Impeachment is not to be considered lightly. But if aiding and abetting the transportation of illegal immigrants into our country doesn't meet the standard for 'high crimes and misdemeanors', then nothing does. Therefore, @joekent16jan19, I'll join you in this effort in 2023.

4. For everyone that criticizes Pres Trump about when covid started with shoulda's coulda's and woulda's, I think he and his administration did the best they could.

The virus was brand new and we'd never seen anything like it.

Biden deserves the criticism.

He has no excuses.

5 President Trump also said that you wouldn't be paying ridiculous high prices at the gas pump with him in charge.

Keystone pipeline would be under construction. we would be drilling for oil, and NOT begging OPEC to drill oil for us

What a pathetic disgrace Joe Biden is.

1. I just got off the phone with my favorite President of all time, Donald J. Trump.

We discussed many issues, people, races in '22 as well as vaccines and mandates.

We discussed #COVID19, how awful the virus from China has been, and how horribly it's been politicized.

That is his pos tion.

Bureaucracy, by separating people from consequences of actions they take, leads at best to amoral decision-making, sometimes to total inversions. Strange for a society to roll the dice with the young/healthy to protect the old/unhealthy. Inconceivable w/out bureaucratic layers.

Because of egregious past errors, the Fed is now trapped.

Pls see this important article:

Inflation is rising faster than the Fed believed it would even a few months ago, with higher prices for gas, goods and automobiles being fueled by the Fed's unprecedented money printing programs. WA state is considering making the COVID vax a requirement for kids in public schools.

All federal funding must be cut off for states that require anyone, especially kids to get vax'ed.

As the narrative erodes the grip will tighten.

This is a call for political action by normal Americans demanding accountability & taking ownership of the institutions that have failed to live up to their end of the social contract we have with our government.

Divorce from the status quo of division & embrace a renewal.

I wouldn't select chairmen for committees based on seniority or who was able to launder lobbyist and PAC money to the leadership. I'd pick people who are capable of dogged, fair, determined oversight.

FBI had intel about a threat to the Capitol ahead of J6, but took no action to fortify/reinforce perimeter security.

What was the source of the intel?

Operational planners knew enough to deploy assets, time to find out what intel drove these decisions.

Experts should advise. They should not make the decisions.

Decision making requires an expertise in something entirely different — GOVERNING.

That's why putting Fauci in charge has been such a disaster. That and he's an evil man with a Napoleon complex.

On last night's spaces I was asked about the PRO act, I couldn't recall the bill off the top of my head, but I made a vid about it last year.

I'm against it b/c it forces workers to join unions & prevents employers from checking employees immigration status.

I won't participate in a charade to pretend January 6th deserves some kind of remembrance or memorial. It's political theater. You know what deserves the focus? The 100,000+ Americans who died from Fentanyl OD's last year. This is a war. Our enemies are China + cartels.

Never forget the republicans who refused to defend our elections & voted to certify the election of 2020.

Many of the same republicans who were derelict in their duties to defend our elections quickly collaborated w/ the "insurrection" narrative to hide their cowardice & finally silence their constituents who supported our transformational president's fight against the ruling class

1 year on, look at who has benefited the most from J6, that is where the answers are.

The Trump movement was an assault on a status quo that only benefited the elite.

COVID, a rigged election & J6 was the elite uniparty's counter assault.

The alleged terrorists in Guantanamo had pro bono lawyers from top NY law firms like Cravath or Davis Polk. Ted Bundy, killer of 36 women, had lawyers from DC powerhouse Williams & Connelly to fight death penalty. But the 1/6 guys? No private lawyer will touch them. FUBAR.

Our souther border is wide open & our immigration process is a security threat.

Iran exploited our open border in the past to plan a terror attack in DC.

The 9/11 hijackers exploited our negligent visa system.

Build the wall, immigration moratorium.

Globalism, on every level has failed.

Biden, the Dems & the free market cult in the Republican Party deeply believe in globalism, Trump was the rejection of globalism, this is truly why they hated him.

Right now our elites have us stuck in the sunken costs of globalism.

This is a national security crisis. We must aggressively on shore production (yes, tariffs), deregulate trucking & natural resource production (open Key stone XL).

We must treat this renewal of industry & sprit as a national endeavor to secure a future for our children.

If we are looking at low carbon energy, might I recommend geothermal given its technological feasibility and the fact it pulls on the same expertise much of our oil and gas industry already have, making it far more pragmatic?

The “sources & methods” answer only buys them time in a open hearing. The FBI & other officials need to have their feet held to the fire in a closed hearing by reps with clearances.

Refusing to answer if any feds were involved tells us they were certainly involved in J6.

If we know about Epps imagine what we don't know about other feds in J6.

The feds will burn their sources eventually & say they only tasked them to collect info, not facilitate violence.

Fed Sources better have it all in writing, if you don't, now is the time to tell all.

Intel officers are taught from day 1 to write intel & even source descriptions to protect sources & methods.

The number of fed sources involved in J6 could easily be disclosed.

Sanborn is using bureaucratic warfare to buy the FBI time to get their story stright.

FBI Confidential Human Sources are recruited, tasked & trained to infiltrate terror / criminal grps, normally based on existing access, Epps being an oath keeper.

CHSs are paid for info this incentivizes getting deeper into grps & making the grp they have infiltrated dangerous.

The FBI wanted list was likely complied by an analysts who didn't have knowledge of who was an FBI source, source ops are compartmentalized for security. Once Epps drew attention he was likely removed in attempt to conceal his status.

Funny how the Jan 6 Committee suddenly releases a statement about Ray Epps the same day @TedCruz questioned the FBI asst director about him under oath. Just a coincidence, I'm sure.

2) He was on video the day before Jan 6 saying "we're going INTO the capitol!" The some in the crowd chanted "fed fed fed." Why? Who knows, maybe they knew he was videoed talking about breaking into the Capitol the day before it was to happen and wanted to create distance?

3) Regardless, he was put on the FBI wanted list, then removed. Because of all of that, the conspiracy that he was an FBI agent has been gospel on the blogs and shows. Side note- this is why we have to address conspiracies not ignore them

Key question about Oath keepers arrests - why now, 1 year later ? Lots of time to destroy evidence etc.

Why charge them w/ crimes that have a high threshold of guilt & a low track record of conviction?

This is the exact opposite of non OK'ers, immediate arrest / easy charges.

Why have only 2 Republican men gone straight from the House to the White House?

Meanwhile, many Senators have become President, with the Democrat Party being obsessed with nominating them.

Maybe I'm crazy, or maybe the party's a monarchy? Or perhaps a "Special Senator club?"

Your opinion isn't "truth." She pushed totally discredited Russian "bounty" story, didn't lift a finger when her GOP colleagues were exposing the biggest fraud in political history, and is retaliating for Trump's "truth" on Iraq War. Spare us your lectures.

The FBI HRT members who saved the hostages were willing to give their lives to save others, it's disgusting that the FBI leadership can't even honor their own by simply being honest about the hostage taker.

Instead they tell insulting & obvious lies to cover their own failures.

Our nation is built on the sacrifice of those who will charge into danger for love of country.

Our political leaders squander the valor of our heroes when they put their agendas above the task of securing our nation.

We demand leaders & institutions worthy of our heroes.

This is exactly why election integrity & adjudicating 2020 are essential for the very foundation of our nation.

If ppl don't trust the election they will turn to other ways of making their voices heard, we can't have that & survive as a nation.

Election integrity must be # 1.

Dems like Biden feared MLK b/c he was leading a peaceful movement to make America live up to our founding ethos

For the left, Floyd's death presented the opportunity to burn cities, at the expense of minority communities, to further their agenda

It's all about power politics

Joe Biden will spend Martin Luther King Jr. Day in Wilmington, Delaware as he believes that "even Dr. King's assassination did not have the worldwide impact that George Floyd's death did."

We will never give up our guns. Gun laws are infringements on our god given rights.

WA state is back at it, a week ago we caught the board of health discussing forced quarantine, now the legislature is going after our 2A.

No 2A + forced quarantine = Australia.

popularly-owned semi-automatic firearms as so-called "assault weapons" and bans their possession, manufacture, transfer, etc.
These firearms are widely used for self-defense, recreational shooting, and hunting, and have now been vilified due to cosmetic features. It is extremely important that NRA Members and Second Amendment supporters contact their lawmakers in opposition to SB 5217.

Senate Bill 5568 deals with the state's preemption laws. SB 5568 will expand gun free zones and permit municipalities to ban the open carry of firearms. These types of measures result in a complex patchwork of gun laws across the state that ensnare otherwise law-abiding gun owners,

Joe Kent Endorses Jackson Lahmeyer for United States Senate

Battle Ground, WA – Today, Candidate Joe Kent announced his endorsement of Jackson Lahmeyer for United States Senate from the state of Oklahoma

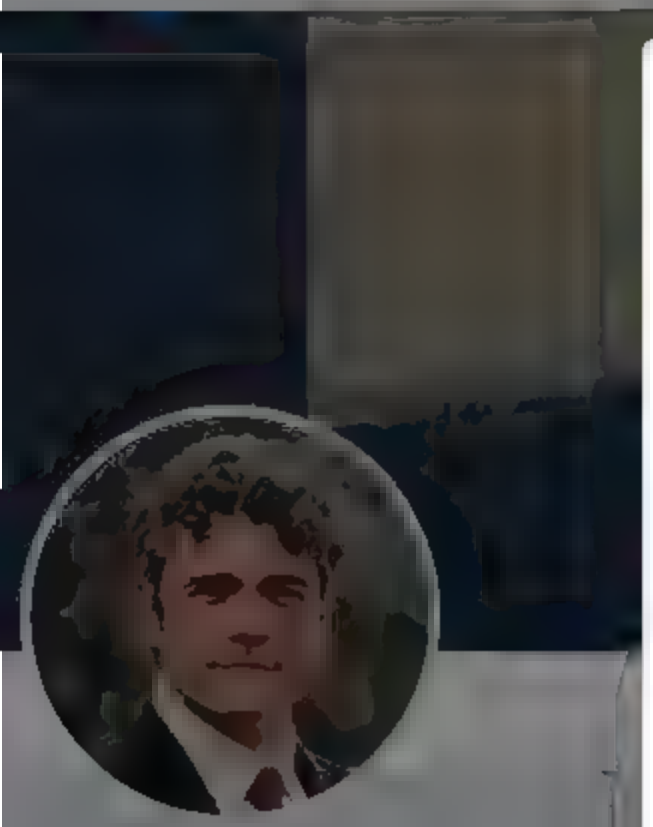
Not only is it imperative that we remove RINOs from the House, but we also have to remove them from the Senate. Especially Red State RINOs.

Oklahoma, a state where President Trump won all 77 counties in, deserves to have a Senator who will represent it's values in Washington.

James Lankford does not represent the great people of Oklahoma. He represents the Swamp.

He is pro Amnesty. He wants to erase our heritage. He bends a knee to the woke mob. And he flirted with impeaching Trump after the January 6 hoax.

My friend, Pastor Jackson Lahmeyer, will be an unapologetic advocate for Oklahoma values and will help advance the America First agenda. And unlike James Lankford, he will fight back against the radically left Biden regime.



Jackson Lahmeyer has my FULL endorsement.

Joe Kent is available for interviews. If interested, please email Byron Sanford at byron@joekentforcongress.com or contact him via cell at 360.210.6943.

Joe Kent Endorses Jackson Lahmeyer for United States Senate

Battle Ground, WA Today, Candidate Joe Kent announced his endorsement of Jackson Lahmeyer for United States Senate from the state of Oklahoma

Not only is it imperative that we remove RINOs from the House, but we also have to remove them from the Senate Especially Red State RINOs

Oklahoma, a state where President Trump won all 77 counties in, deserves to have a Senator who will represent it s values in Washington

James Lankford does not represent the great people of Oklahoma He represents the Swamp

He is pro Amnesty. He wants to erase our heritage. He bends a knee to the woke mob. And he flirted with impeaching Trump after the January 6 hoax

My friend, Pastor Jackson Lahmeyer, will be an unapologetic advocate for Oklahoma values and will help advance the America First agenda. And unlike James Lankford, he will fight back against the radically left Biden regime.

Excellent thread.

Do not accept vague talking points as justification for war.

Demand a clearly defined national security objective, definition of victory & criteria for exiting conflict.

Remember the lies of the last 20 years of war. The last war Biden championed was Iraq.

It is clear to everyone, even those who's job it is to run cover for Biden, that he is not fit to be our commander in chief.

We need restraint & he is stumbling us into a foolish war.

Natsec war hawks & Biden's political team are using Biden's incompetence & mental decline to force us into defending Ukraine against an attack he green lighted.

Now, the fate of a war in Ukrainian is up to Putin, our weakness at home & installing Biden has major consequences.

Battle Ground, WA Today, Candidate Joe Kent announced his endorsement of Jackson Lahmeyer for United States Senate from the state of Oklahoma

Not only is it imperative that we remove RINOs from the House, but we also have to remove them from the Senate. Especially Red State RINOs

Oklahoma, a state where President Trump won all 77 counties in, deserves to have a Senator who will represent it's values in Washington

James Lankford does not represent the great people of Oklahoma He represents the Swamp

He is pro Amnesty. He wants to erase our heritage He bends a knee to the woke mob. And he flirted with impeaching Trump after the January 6 hoax.

My friend, Pastor Jackson Lahmeyer, will be an unapologetic advocate for Oklahoma values and will help advance the America First agenda And unlike James Lankford, he will fight back against the radically left Biden regime

Joe Kent Endorses Jackson Lahmeyer for United States Senate

Battle Ground, WA Today, Candidate Joe Kent announced his endorsement of Jackson Lahmeyer for United States Senate from the state of Oklahoma

Not only is it imperative that we remove RINOs from the House, but we also have to remove them from the Senate. Especially Red State RINOs

Oklahoma, a state where President Trump won all 77 counties in, deserves to have a Senator who will represent it's values in Washington

James Lankford does not represent the great people of Oklahoma He represents the Swamp

He is pro Amnesty. He wants to erase our heritage He bends a knee to the woke mob. And he flirted with impeaching Trump after the January 6 hoax.

My friend, Pastor Jackson Lahmeyer, will be an unapologetic advocate for Oklahoma values and will help advance the America First agenda And unlike James Lankford, he will fight back against the radically left Biden regime

Jackson Lahmeyer has my FULL endorsement

Joe Kent is available for interviews. If interested, please email Byron Sanford at byron@joekentforcongress.com or contact him via cell at 360.210.6943.

Twitter didn't need to give a reason, their policy is pretty clear at this point. One political side is allowed free speech, and it's not ours.

Big Tech is in for a rude awakening when leaders like @joekent16jan19 join our ranks in Congress soon.

Section 230 should be reformed and made conditional on free speech, not repealed entirely. If it is repealed entirely, it likely means they will censor more because they will have a lot of liability

Till till a couple of years ago I thought the statement that "the second amendment is here to protect the first" was a bit of an overstatement.
Now I think that it doesn't state it emphatically enough.

We will never give up our guns. Gun laws are infringements on our god given rights. WA state is back at it, a week ago we caught the board of health discussing forced quarantine, now the legislature is going after our 2A. No 2A + forced quarantine = Australia.

Weiss is spot on, however all the reasons that she points out are exactly why the ruling class will not let go of the power we gave them.

They want us locked down, weak, divided & depressed.

Our freedom won't be given back to us, we have to take it back.

The most impressive thing about Bari Weiss on last night's Bill Maher is the wild applause after she finishes here. After two years the tides are turning, even for the left leaning people in this country when it comes to covid. Watch this.

Slain NYPD officer Jason Rivera wrote this in the academy.

His academy company was 20-62, meaning he's only been on patrol about a year.

Murdered by a savage at 22 yo.

From: Probationary Police Officer, Company #20-62

To: Commanding Officer, Police Academy

Subject: WHY I BECAME A POLICE OFFICER

1. When I applied to become a police officer, I knew this was the career for me. I would be the first person in my family to become a police officer. Coming from a immigrant family, I will be the first to say that I am a member of the NYPD, the greatest police force in the world. Growing up in New York City, I realized how important my role as a police officer would go in this chaotic city of about 8 million people. I know that something as small as helping a tourist with directions, or helping a couple resolve an issue, will put a smile on someone's face.

2. Growing up in Inwood, Manhattan, the community's relationship between the police and the community was not great. I remember one day when I witnessed my brother being stopped and frisked. I asked myself, why are we being pulled over if we are in a taxi? I was too young to know that during that time, the NYPD was pulling over and frisking people at a high rate. My perspective on police and the way police really bothered me. As time went on, I saw the NYPD pushing hard on changing the relationship between the police and the community. This was when I realized that I wanted to be a part of the men in blue, better the relationship between the community and the police.

Don Huffines Issues Warning to Joe Biden, No Texas National Guard for Ukraine or Other Foreign Wars Without Congressional Declaration of War

DALLAS, TX, January 24, 2022—Following continued reports that Joe Biden is considering deploying troops to Ukraine and the Baltics in conflict with Russia, conservative candidate for Texas governor Don Huffines outlined his opposition to unconstitutional war and commitment to defending the Texas National Guard from being deployed into active combat duty in Ukraine or any other foreign country without a Congressional declaration of war.

Huffines issued the following statement:

"Our state is under invasion. Securing the Texas Border, protecting American citizens, and stopping illegal aliens from entering our country is far more important than any conflict in Ukraine. When I am Governor of Texas, I will use the Texas National Guard to secure the Texas Border and protect them from unconstitutional wars by prohibiting them from being deployed into active combat overseas without a Congressional declaration of war, as is required by the Constitution."

Huffines further added:

"Leftist warmongers and their RINO allies would rather defend any border other than our own. I support the Defend the Guard movement and the U.S. Constitution. We need patriotic and courageous leaders who will put America and Americans first."

Further info.

- The position espoused by the Huffines campaign is in lockstep with the Texas GOP platform. Plank 302 of the 2020 platform reads as follows.
    - "National Guard Deployment. Congress shall not abdicate the war powers to the executive branch except when under imminent threat and not to be used as a

It was never about the tone or the tweets, Trump was an assault on corporate uniparty.

Try to bring back manufacturing, stop wars, cut off illegal immigration & the machine will do everything it can to course correct.

This how you know Biden's foreign policy is a joke.

If Russia is such a huge threat then why did we lift sanctions & green light their gas pipeline to Europe ?

Why kill off our oil production, making RU's gas more valuable?

Biden gave this to RU & is risking war to hide it.

One reason the aristocracy pushes war so much is it adds romance to their insipid lives. Their children aren't the ones sent off to die and it gives them something to talk about at the country club. "Our forces are marching on the Tsar!" They derive meaning and purpose from it.

Next time you hear President Biden and Senator Durbin opine that there's never been an African American woman on the Supreme Court, remember that they blocked the incredibly qualified Janice Rogers Brown from the DC Circuit to keep her from the Supreme Court.

The media could not be played.

Biden deploying troops to Ukraine is a reckless escalation, Congress must act, freeze all funding for troop deployments to Ukraine.

Congress did this to prevent Trump from getting our troops out of AFG & SY to KEEP us at war - demand that congress uses its power to STOP a war.

Foreign policy realism and restraint continues to be one of the most precarious parts of the three-part sea change President Trump brought to the American Right. Though many politicians now claim to "oppose endless wars," very few stake real credibility on opposing the blob

Theoretical restraint is easy, what is difficult is pushing against the tide of war when Washington decides that young men must die in some far away land. That's why Senator Hawley's stand here is so impressive.

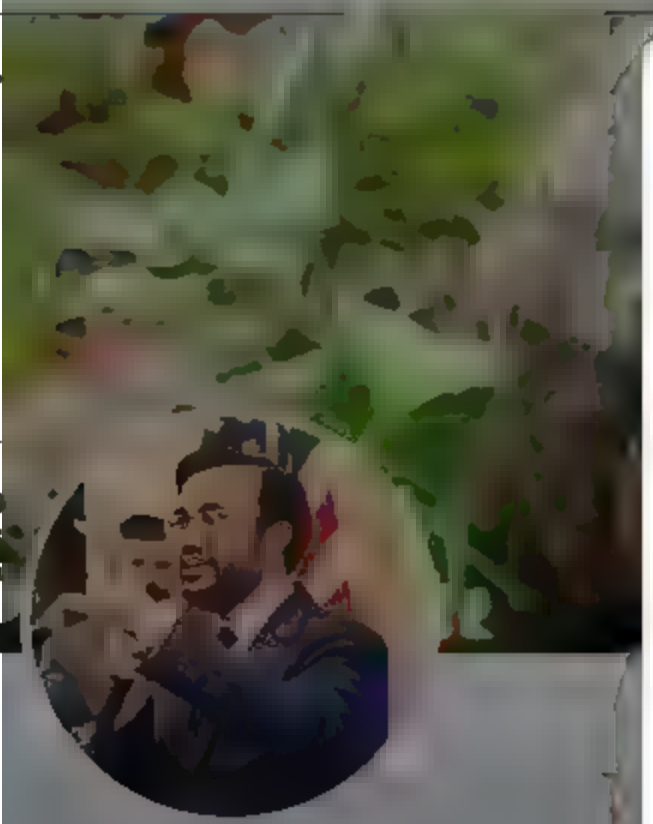
This Ukraine conflict is a perfect snapshot of every weakness in the old Republican foreign policy consensus.

1) Agitating for conflicts in regions where we don't have vital strategic interests.

1

Saurabh Sharma @ssharmaJS · 5m



2) Using old alliances like NATO to entangle us in a chain of dominoes that could lead to war

3) Failing to realistically counterbalance other powers against our real competitor this century — China.

In short, good on Senator Hawley, hopefully other members of Congress decide to put their money where their mouth is on endless war. We desperately need sanity

I'm honored to stand with President Trump to fight for our nation against our failed & corrupt ruling class.

No more feckless republicans, no more surrendering to the democrats.

America 1st is the future.

This is a civil rights violation. An American company cannot be allowed to discriminate based association / political affiliation.

Next comes banks, hospitals & grocery stores etc.

We cannot let any company behave this way in our nation.

One of my opponents destroyed her credibility by breaking her promise to drop out after Trump endorsed me.

And now she's given up on winning and has instead launched a kamikaze attack on my campaign to split the vote and re-elect Jaime Herrera Beutler.

For decades US politicians have sold out America and traded their patriotism for riches from China.

This picture of the filthy Olympics in China sums it all up.

America must make a choice.

No more deals with the CCP and throw out the traitors who sell out our country.

It brings me so much hope and joy to see other military vets who have been to Iraq and Afghanistan do the hard, but right thing, and call it for what it is. Not discrediting individual acts of heroism, but acknowledging the bigger picture was corrupt and did not help America.

Battle Ground, WA Today, candidate for Washington's 3rd Congressional District, Joe Kent, speaks out against the violation of our 2nd Amendment rights by the WA state legislature

Candidate Joe Kent made the following statement

Last night the Washington State Senate voted to pass a bill that will ban the importation, manufacture, and sale of magazines with a capacity greater than 10 cartridges.

In the summer of 2020, we watched violent mobs burn down small businesses, murder innocent people, and march into our neighborhoods Instead of targeting law abiding Americans, leaders should be targeting the left-wing terrorist organizations and their benefactors

Our absentee congresswoman, Jaime Herrera-Beutler, refused to condemn this legislation or do anything about it This follows her pattern of opposing our fundamental 2nd Amendment rights by both advocating and voting for Red Flag laws to seize firearms from citizens without due process.

BREAKING: 204 Legislators from Multiple States Write a Letter to the American People Calling for a 50-State Audit, Decertification Where Appropriate, and Possible Convening of the US House of Representatives (1/2)

Subject: Letter from state Legislators to the American People Regarding the 2020 Election

To the Citizens of the United States of America:

We the undersigned state legislators of the United States are vested with the plenary power by our Constitution, Article [illegible], Section [illegible], to oversee the election of the president of the United States.

It has come to our attention from an audit of [illegible] ballots in Arizona, supplemented by an in-depth canvass of voters in Arizona, as well as through multiple, different data reviews of output by Independent experts that our representative republic suffered a massive [illegible] of election

In addition to Arizona, many affidavits have accumulated from many states detailing rampant corruption and inconsistencies in the election process. Fraud and irregularities have already been shown through analyses, audits and canvasses in multiple states, as well as through lawsuits challenging the validity of election results in several counties in multiple states.

We have come to the unfortunate conclusion that all 50 states need to be immediately audited. Many will already be established with a process in the event to restore faith in the integrity of our elections.

If certain officials in those states refuse to allow the audit to move forward, as has been shown in Arizona and as being shown in many other states, then it is clear that circumstances of many elections were improperly conducted on January 20, [illegible] of the November 2020 general election.

We call on each state to decertify its electors whose election has been tainted by irregularities, fraud and unconstitutionality.

If it is shown that, after the audit is complete, fewer than [illegible] electoral votes of United States Congress, [illegible] electors, then we call on the U.S. House of Representatives to convene and vote per the 12th Amendment by means of one vote per state to decide the rightful winner of the election as mandated with the [illegible] of deciding elections.

There is an historic obligation to restore the election integrity of the vote as the bedrock of our constitutional republic.

If we do not have at least 50 states take these steps, we do not have a chance.

Signed,

Senator Wendy Rogers, Arizona
Senator Sonny Borrelli, Arizona
Senator Kelly [illegible], Arizona

The is the template this year for the Republican Establishment. It's happening everywhere there's strong new blood.

If they cannot beat the base, they'd rather split the vote and hand the district to the Democratic candidate, whom many have openly endorsed in #CA13.

Republicans who voted for amnesty, going back to 1986, are just as responsible for this as democrats.

The GOP will fundraise off AOC "say no to socialism!" Then take $ from corporations who use immigration to undercut US jobs & silently vote for amnesty. Ask @HerreraBeutler

The Columbia Bugle @ColumbiaBugle

With AOC talking about turning Texas Blue, watch Tucker Carlson explain in less than a minute the Democrats' plan to use amnesty to change the demographics of America.

Worker visas are an assault on US workers at the behest of the corporatists.

The corporate donor class wants unchecked immigration because it's cheaper to hire foreigners than it is to pay Americans a decent wage.

An immigration moratorium is a must.

New Trafalgar Poll Shows Joe Kent Sustains 1st Place Among Republicans

Despite Onslaught of Attack Ad Lies

DATE: February 16, 2022

FOR IMMEDIATE RELEASE

Contact: Ozzie Gonzalez

Call: 951.442.0680

ozzie@joekentforcongress.com

Battleground, WA Joe Kent's campaign manager Ozzie Gonzalez released the following statement in response to the new Trafalgar Group poll showing Joe Kent maintaining his lead among the four Republicans in the race

Our campaign has been leading in the number and size of our public events, volunteer recruitment county GOP endorsements, and individual contributions And despite facing a constant bombardment of dishonest attack ads, we are still in first place among Republicans This is the third poll in a row showing Joe in the lead.

However this race is still far from over Rep. Jaime Herrera Beutler still has millions of dollars from foreign corporations, Big Pharma, and tech oligarchs to try and cover up for her votes for impeachment, Red Flag Laws, the vaccine tracking database, and amnesty or her votes against securing our border and withdrawing our troops from Syria.

The message these polls has consistently shown is clear the other Republican candidates in the district must consolidate behind Joe to ensure we retire Jaime Herrera Beutler and elect an America First conservative who will fight for us as hard as Jaime fights to get checks from foreign corporations

Joe Kent is available for interviews If interested, please email Ozzie Gonzalez at

The council on foreign relations scholar generals are so sophisticated the only solution they can offer is war.

They have to use silly insults like “Russian stooge” to divert from their track record of failure.

Barry & his crew are living examples of why we need new experts.

JD Vance s a shameful person unsuitable for public office His comments are those of a stooge for Russian aggression.

The advocates for war in Ukraine are the same failed establishment dimwits responsible for Iraq / nation building / regime change.

Our enemy is the CCP & world economic forum. It's a complex economic/information war that's why the dimwits prefer tanks in Europe like it's 1986.

Another reason the natsec establishment hated Trump so much was that he actually executed what they studied at Georgetown & wrote papers about; using economic & diplomatic power w/ limited force to secure our nation.

Fact, Russia's aggression toward the international community is financed by natural gas. The United States alone could ensure that Russia never made another cent of profit on its energy sales to Europe.

We should ask why it hasn't been done. And no, it's not global warming.

Did you know social security is taxed twice? Once when the money is deducted from your paycheck, and then again (for most people) when you receive the benefit.

My bill, HR 6590, the Senior Citizens Tax Elimination Act would eliminate the double-tax on Social Security benefits.

$58,000 per household. That's how much money the federal government spent in the name of COVID.

Even if you consider the vaccines a success, they allegedly cost less than $50 each.

Where was all that money spent? What could your family have done with $58,000 ?

I've heard the wildest things over the past few hours. The best was that I'm disqualified for having "The White Dragon" open my campaign video... Referring to Steve Bannon. Haha! I'm literally in tears laughing. They must've missed this one - Steve Bannon is an American hero.

Biden is recklessly driving us towards war. Only 43 reps have stepped forward to demand a debate on war.

Have we learned nothing from Iraq?

Congress needs to freeze funding for deployments, define our natsec interests & have an on record vote.

Prevent a slow slide to war.

Weakness, combined with hubris has its consequences.

We surrendered our economic edge w/ our foolish energy policies & showed how weak we are in Afghanistan, yet our national security establishment continued talk tough with nothing to back it up.

The case for on-shoring our production & ensuring that we can take care of our nation independently has never been more clear.

Globalism has failed. We currently lack credibility & internal strength.

Our generation's fight must be reclaiming our economic independence.

Every Representative & Senator must demand that we don't stumble into war.

War must be debated, voted on & declared.

Biden is weak & desperate to look strong. Congress is our check on getting into a war without the consent of the American people.

You can immediately drop the price of oil by authorizing the Keystone pipeline, expanding domestic drilling, and fracking. Yes, fracking.

Then go all-in on nuclear.

So much of this comes down to pipelines and energy.

Trump's strength was not bravado. He sought peace via economic deals while using limited force when necessary.

Putin took him seriously b/c Trump could pressure Europe from buying RU oil, order strikes against RU mercs in SY & seek better relations w/ him, all at the same time.

Trump could use the full scope of US power because his starting point was making us strong & independent at home. He took to the world stage negotiating from a position of strength.

We are not in that position now b/c of Biden's globalist economic policies & his weakness in AFG

It's easy, obvious & justified to blame Biden.

What I am concerned about is Biden's national security team; they are the architects of the Afghanistan travesty, Iran deal, Libya, Syrian rebels, ignoring ISIS & letting Putin take Crimea.

They are weak, incompetent & desperate.

I share the same concern. And what's more, no one from Biden's national security team was held responsible or accountable for any of these failures, at any time.

They've never shown a shred of remorse & America is far less safe because of it.

I would argue, in fact, that Trump s strength in foreign policy, using both economics and focused, strategic military action, was the highlight of his entire administration

It doesn t get enough praise even from his biggest supporters. He made the world objectively safer

Sanctions need to include tossing Russia from SWIFT banking.

Sanctions are sadly the best we can do now, that means they must be painful.

We also need back channel communication to assure Russia that Ukraine will never be part of NATO if they stop the invasion & w/drawl.

Opening a cyber front in this crisis is foolish, we should be looking to deescalate & dialogue, take NATO membership for Ukraine off the table if the Russia stops attacking.

Cool heads & dialogue are needed, not a cyber war.

I would encourage conservatives to ease off each other for awhile. It should be possible to: admire Ukraine resistance, criticize Biden fecklessness, understand logic of Russian position, oppose western elites corruption, reject a broader U.S. intervention, all at the same time.

We are in this predicament b/c we are weak, not just Biden's appearance/tone, we lack any real leverage. Biden killed off our energy advantage, crushed our economy w/COVID policies & off shoring.

So now all we have is the threat of force. We must fix this now or this gets worse

A no fly zone is an act of war.

No fly zones are fine in places where we have total air superiority, when the other side has fighter jets & surface to air missiles, it's a just war.

Those advocating for this are looking for any reason to get us into a fight that's not ours.

Why are we purchasing nearly 600,000 barrels of oil a day from Russia when we have the ability to have affordable, reliable, & sustainable energy production in states like OK? American dollars should be spent here at home, not used to line the pockets of Russian oligarchs & Putin

I'm going to say it again because it's true. America (and her allies) are in a position of unnecessary weakness because progressives (both U.S. and abroad) have systemically torpedoed our domestic energy production (demand has remained) forcing greater dependence on Russian oil.

The more credentialed a dimwit is the faster they go right to advocating for your kids to go die for their dangerously stupid ideas.

Everything you need to know about the Russian-Ukraine conflict is in this lecture by John Mearsheimer.

It was delivered seven years ago at the University of Chicago but is more relevant now than ever.

The dominos continue to fall. Energy independence is national security, learning this again will be painful.

We lack security, leverage & strength - every bad actor on earth smells blood in the water.

Stay focused on China- COVID showed us the danger of China & how our elites gain from our pain via the CCP.

The awakening is a threat to the elite at every level b/c it empowers the people.

A rally around the flag & gov, fight for freedom is a great way to halt the awakening.

W/ the Cheneys it's all greed, war is the best way to profit. For her dad it was Iraq.

Liz has adapted to the CCP elite capture era, her husband reps the CCP & she goes after Trump b/c he was a threat to the CCP.

She's peddling this "war for freedom!" non sense to distract.

This is one time I would oppose dropping the mask mandate.

Until all federal mandates are lifted they should be masked up too, for their safety.

The goal of the negotiations is to stop the killing, stop Putin from thinking he must take all of Ukraine.

Take NATO / EU membership off the table, this gives Putin an exit w/ honor, he can say he stopped NATO/EU expansion & Zelensky can rightfully say he defended his country.

- Trump armed Ukraine.

- Presidential debate (final and most important) didn't cover foreign policy, as the world was approaching total peace.

Trump was the peacemaker. America was strong.

These are only the facts.

Trump is crushing terrorists, signing peace deals and no new wars. That's why the media won't cover foreign policy and didn't cover it in debates!

Each day this continues the more we become accustom to political prisoners & dehumanization of the “other”.

You can be appalled & angry w/ Putin & still recognize the serious risk of a war w/ Russia, the historic conflict between Russia & Ukraine & the glaring lack of a vital US national security interest; all at the same time.

Read this thread- he's looking to de-escalate at this critical juncture, not rattle the saber or open the door to more US intervention.

This is the leadership we need.

My opponents are again spreading lies about me.

I strongly condemn Nick Fuentes's politics, especially in regards to our ally Israel.

I ignored his invitation to speak at his recent conference in Orlando, and I am not aware of nor do I accept any endorsement from him.

I stand by this. No one be should de-platformed or put on a no fly list for their political ideas.

I don't want Fuentes's endorsement due his focus on race/religion, the fights he's picking are counter productive, this is not my message of inclusive populism.

Biden recently extended the COVID-19 national emergency for another year despite painting an optimistic portrait of life for Americans after COVID during his recent SOTU address. The extraordinary powers given to Biden to deal with the pandemic are no longer justified.

Twice I have moved to terminate the national emergency & both times Pelosi changed House rules to prevent consideration. I'm pleased that today the Senate passed a companion to my resolution & I look forward to filing a discharge petition early next week to force a House vote.

Under the COVID national emergency declaration, 123 emergency statutory powers can be invoked by Biden, including the power to draft Americans without consent, raising Fauci's salary, further barricading the United States Capitol, & placing health services under military control.

Moronic & reckless talk coming from a chicken hawk w/ the same foreign policy track record as Joe Biden & Bush.

The danger now is the idiots we have in charge.

Lindsey is a text book example of why everyone should stop giving to the GOP.

Is there a Brutus in Russia? Is there a more successful Colonel Stauffenberg in the Russian military?

The only way this ends is for somebody in Russia to take this guy out.

You would be doing your country and the world a great service.

Is anyone going to ask @GovEvers why @AdamKinzinger, one of his air national guard pilots, is advocating so hard to kick off WW3 so that he'll have a full time job when he's booted out of congress? I would really like that not to be Wisconsin's fault. #wiright

The biggest danger at #Zaporizhzhia isn't a nuclear meltdown.

It's that NATO will use that overhyped risk to ratonalize entering the war.

This is classic wartime propaganda playing out before our eyes.

Or is that only for Representatives who tweet cartoons or had a spicy Facebook post before they were an elected official?

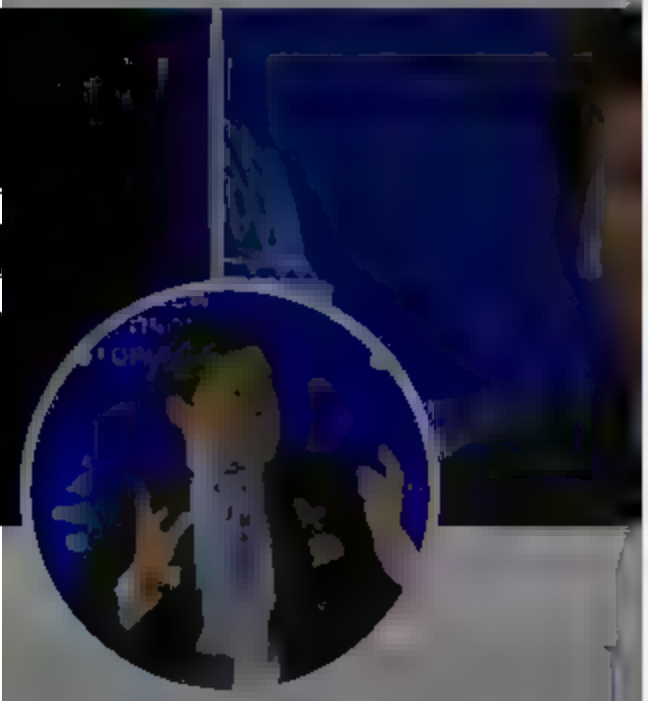
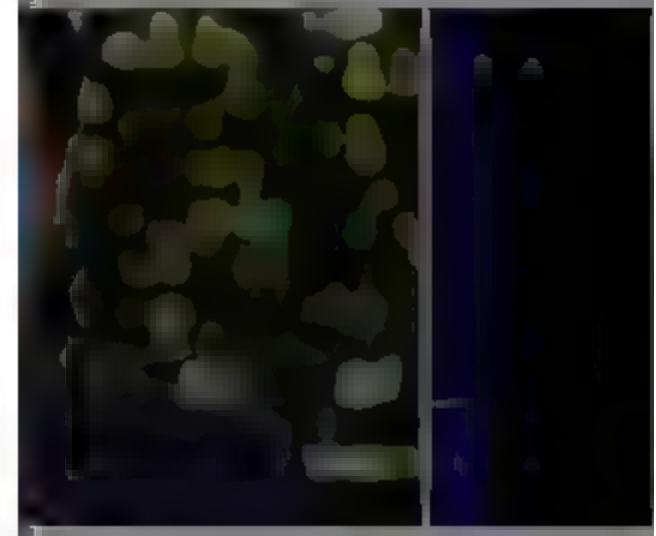
Russian and Ukrainian forces reached a local ceasefire to guard #Chernobyl together.



The Russians were ready to do the same thing at #Zaporizhzhya.



But they were fired on with RPGs -- which set off this whole incident.

We are exposed to a constant barrage of propaganda about Ukraine and Russia. We are told it's the most important test of democracy in a generation. Yet: the one thing we could do to weaken Russia is become more energy independent, and we refuse to consider it. Something is off.

Establishment @heidistjohn refused to debate me on @LarsLarsonShow after previously agreeing to.

She said she'd only debate in person but refused an offer from the Skamania GOP to host an in person debate last month.

Kent Campaign: Heidi Ducks Debate, Hides Behind Lies... Again

Today, Joe Kent's campaign manager Ozzie Gonzalez made the following statement.

> On yesterday's Lars Larson show, Heidi St. John turned down a chance to debate Joe Kent on Lars' program with the bizarre excuse that she'd only debate in person and not over the phone, a requirement of Lars' Portland-based radio station.
>
> But in early February, she refused the Skamania GOP's offer of an in-person debate, in her words, "if Joe Kent showed up."
>
> She said back in November that's she'd debate in January, and that has also turned out to be a lie
>
> She demonstrates again and again that she's not a serious candidate. She broke her promise to drop out of the election if Trump endorsed someone else and blamed that on "not being fully informed."
>
> She's far behind in all three independent polls of the race and while Joe's on the road holding public events in every county in the district, she hides behind attack ads and lies.

Once again: Ukraine lied to the world in an attempt to provoke a global war between countries with nuclear weapons.

I am not pro-Russia or pro-Ukraine -- I am pro-America and anti-Zelensky for his trying to escalate this into WWIII.

This war could be ended today by us and the solution would be simple. Become net producers & exporters of gas & oil like we did under 45. Supply Europe its energy needs. Makes you wonder why 46 killed our oil / gas industry day 1 in office & hasn't done this yet. #WEF puupet

It's quite easy to call for a #noflyzone when you have never served, never sent your husband or kids to war. We do not have a moral obligation to every country in the world when they are attacked. If you want a no fly zone, sign up & put the uniform on- or implement a draft.

Or is that only for Representatives who tweet cartoons or had a spicy Facebook post before they were an elected official?

Strip Graham of his committees. He's tweeting about assassinating heads of state & provoking WW3.

Or is that only for Representatives who tweet cartoons or had a spicy Facebook post before they were an elected official?

Notice how it's always 1938 and never 1914 (or 1871, 1853, 1956, 1968, etc).

1938 serves a western political agenda, showing an evil party, an aggressor and a victim, while the 1914 was the result of alliances and in which the aggressor party was not clearly defined

You hear "this is just like 1968" with regard to American progressive actions pretty often actually

It takes more courage & skill to dialogue w/ an adversary than it does to mindlessly default to war.

Adam is just mad he didn't get another regime change war in SY so now he's cheerleading WW3 & smearing those trying to de escalate.

Real leaders have a duty to prevent war.

I never heard of this guy until the same media that lied about everything from WMD's in Iraq to Jussie Smollette showed me a bad ass picture of the guy in a flak jacket. I now have a strongly held opinion on what heroism is and who the good guys are.

Putin invaded Ukraine. But an alliance of bad actors, the U.S. foreign policy establishment, and NGOs paved the road that made the present crisis inevitable.

My latest column is a deep dive into the origins of the war.

How the West Sowed the Seeds of War in Ukraine
Putin invaded Ukraine. But an alliance of bad actors, the U.S. foreign policy establishment, and NGOs paved the road that made the present crisis inevitable

If the first casualty in war is truth, then all the rest are those from whom the truth is kept.

We are now dealing with the symptoms rather than the cause of the war.

Some stuff that I found really wild

Between 1991 and 2013, the US government funded National Endowment for Democracy pumped more than $5 billion into Ukraine to promote civil society. But its real function is as a vehicle for regime change.

"A lot of what we do today was done covertly 25 years ago by the CIA," explained NED co-founder Allen Weinstein.

I actually couldn't believe that he said this out loud, but he did.

John Mearsheimer wrote in Foreign Affairs that after Viktor Yanukovych won Ukraine's presidential election in 2010, "the NED decided he was undermining its goals, and so it stepped up its efforts to support the opposition and strengthen the country's democratic institutions."

Carl Gershman, who served as the NED's president from its founding in 1984 until 2021, called Ukraine "the biggest prize" in 2013, the year that a regime change "revolution" backed by the Obama administration would get underway.

To date, the civil war triggered in Ukraine's Donbas region by the Obama backed "revolution" has claimed more than 14,000 lives. It also flattened Ukraine's economy.

This is called "democracy" by the DC foreign policy establishment.

It's insane how well documented all this is and yet it remains totally outside mainstream discussion.

People really think Russia and Ukraine started fighting in February because MSNBC and Sean Hannity told them so.

8 · 206 · 827

Everyone in this is dirty. Russia, the US, Ukraine. The breadth and depth of corruption and skullduggery is astounding. And again, no one wants to talk about it. We are just told "here are the good guys, here are the bad guys, fight."

And because Bill Clinton just announced that the Clinton Global Initiative has restarted, it's important to remember its ties to Ukraine.

The Wall Street Journal published an analysis in 2015 of individual donations over $50,000 made to the Clinton Foundation between 1999 and 2014. It found that Ukrainians were its top donors.

A figure who illustrates the incestuous relationship between Ukrainian corruption, the U.S. government, and NGOs is Victor Pinchuk, a businessman and oligarch who served two terms as an elected member of the Ukrainian Parliament.

3 · 87 · 345

Pedro L. Gonzalez @emeritus · 11h
Between 2009 and 2013, while Hillary Clinton was secretary of state, the Clinton Foundation received at least $6.6 million from the Victor Pinchuk Foundation, which is based in Kiev.

3 · 191 · 475

Pedro L. Gonzalez @emeritus · 11h
Pinchuk began donating to Clinton NGOs in 2006 after being introduced to Bill Clinton by Doug Schoen, a pollster who has worked for the former president and his wife.

3 · 78 · 302

Pedro L. Gonzalez @emeritus · 11h
The Journal reported that in 2008 Pinchuk made a five-year, $29 million commitment to the Clinton Global Initiative. The money went toward a program to train future Ukrainian leaders and professionals "to modernize Ukraine," according to the Clinton Foundation. Now it's back.

5 · 146 · 357

Pedro L. Gonzalez @emeritus · 11h
"Several, a dozen are current members of the Ukrainian Parliament," the Journal noted in 2015. That year, NPR reported that Pinchuk donated $1 million to $5 million to the Clinton Foundation—Kyiv Post said that Pinchuk "gave up to $5 million."

3 · 73 · 291

Pedro L. Gonzalez @emeritus · 11h
Bill Clinton spoke at an annual Yalta European Strategy meeting in 2007, a group founded by Pinchuk to promote Ukraine joining the EU. Federal records reviewed by the Journal showed Schoen was registered as a lobbyist for Pinchuk during Hillary Clinton's time at the State Department.

4 · 73 · 299

Pedro L. Gonzalez @emeritus · 11h
Schoen denied his lobbying was related to the donations. People can draw their own conclusions.

All this is just a glimpse of Ukrainian corruption. @davereaboi's "NGO Archipelago" is extremely appropriate.

davereaboi.substack.com
Ukraine and the NGO Archipelago
Western oligarchs funded an ecosystem of influence in order to pull Ukraine into Europe, setting it on a collision course with Russia. Plus: Epic shredding from McLaughlin, D'Meola and DeLuca.

Regarding the money the NED helped pump — that is a lot of money and a lot of work for a country that serves no national security interest to the US.

. *Mearsheimer*

its efforts to spread Western values and promote democracy in Ukraine and other post-Soviet states, a plan that often entails funding pro-Western individuals and organizations. Victoria Nuland, the U.S. assistant secretary of state for European and Eurasian affairs, estimated in December 2013 that the United States had invested more than $5 billion since 1991 to help Ukraine achieve "the future it deserves." As part of that effort, the U.S. government has bankrolled the National Endowment for Democracy. The nonprofit foundation has funded more than 60 projects aimed at promoting civil society in Ukraine, and the NED's president, Carl Gershman, has called that country "the biggest prize." After Yanukovych won Ukraine's presidential election in February 2010, the NED decided he was undermining its goals, and so it stepped up its efforts to support the opposition and strengthen the country's democratic institutions.

Buchanan, Mearsheimer & Paul were ahead of their time, their assessments have been vindicated many times over.
Trump's pragmatism & strength took their theories into reality & we were safer b/c of it.
The establishment is trying to drive us backward due to their hubris & greed.

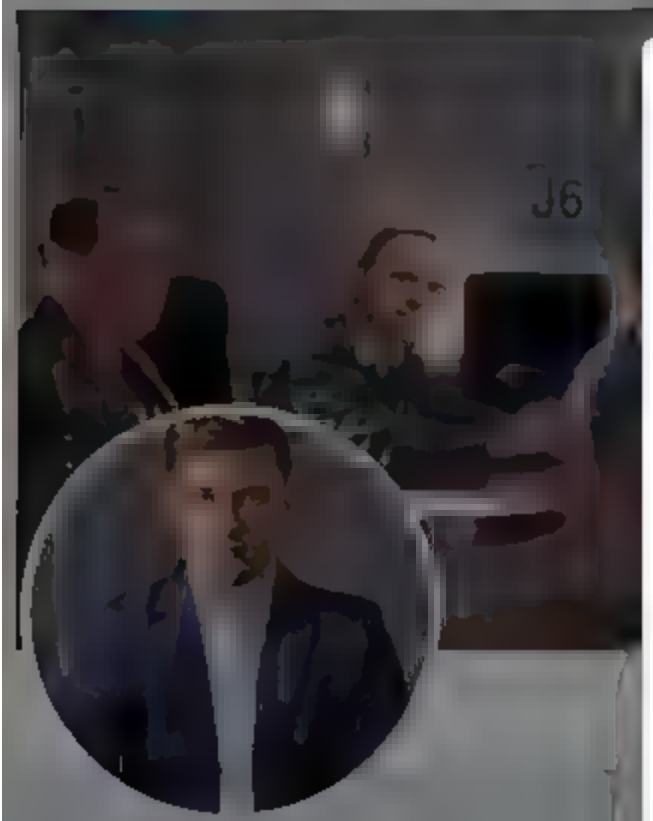
If we are not encouraging diplomacy & trying to give Putin off ramps we are encouraging more conflict.



The west w/ the US in the lead is continuing to "support" Ukraine & make them think real support is coming, this will either lead them to the slaughter or all of us to WW3.

The West thinks sanctions are hurting Putin.

They have it backwards: His power inside Russia is surging.

Objectively, Putin's poll numbers have improved since the lead-up to and onset of the war

This was predictable — a "rally 'round the flag" effect is common for wartime president.

In less than 2 weeks, his approval rating spiked 10 points — from 61% to 71%

Russian trust in Putin has SURGED since the invasion of Ukraine

If this is true, we must urge Ukraine to accept these terms.

These are very reasonable requests & a path to ending the killing & avoiding further escalation.

We need to be actively working towards a cease fire & an off ramp. We are leading the Ukrainians on that support is coming , it's not, or if it is we are pushing WW3 & Russia into the arms of the CCP.

This fight is a distraction from the economic war China is waging on us.

It can & likely will get worse, especially if we keep pushing Russia to China using diplomacy to stop that is not a political stunt or a futile endeavor, it's where our efforts should be.

It was Zelensky that moved Europe and forced Biden's White House to catch up.

It was Congress (prominent Ds & Rs) that just forced Biden to catch up & ban Russian Oil & Gas.

This White House is being forced to follow & is not leading any effort other than appeasing adversaries.

If we cared, we'd unleash US energy & drive down Russian oil to leverage a cease fire.

We need to be honest w/ Ukraine that no one is coming. The western natsec community is putting them on the path to prolonged carnage.

INSURANCE COMMISSIONER

FOR IMMEDIATE RELEASE
For inquiries contact press@patrickwitt.com
March 8, 2022

ATLANTA—Patrick Witt Announces for Georgia Insurance Commissioner

"America is in a precarious position. Our freedom as individuals, our way of life as a people, and our future as a nation are all at stake. Recognizing the severity of the state we're in is why I left my job in the private sector to serve under President Trump and to join in the effort to Make America Great Again. I am proud to have played a role in advancing the America First agenda as a member of President Trump's administration and to have fought for election integrity as a member of his post-election legal team in Georgia.

As a member of the Trump administration, I saw firsthand the inefficiency and incompetence of many of our largest bureaucracies. That experience demonstrated to me the powerful impact that these agencies have on our lives and the need to have strong conservatives fighting for us at every level of government. Georgians deserve better, which is why, today, **I am announcing my candidacy to serve as Georgia's next Insurance Commissioner.**

"During a time of record inflation caused by the failed policies of Joe Biden, we need someone who will show up to work every day fighting to lower premiums and put the needs of Georgians first. As Insurance Commissioner, I will bring professionalism and integrity to the office, get rid of regulations that prevent insurance jobs from coming to our state, and see to it that every person who works in the agency never forgets that our duty is to protect our fellow Georgians.

"I bring unique experience from both the public and private sectors to the Insurance Commissioner's office. In Washington under President Trump's leadership, I managed a 2,500-person federal agency responsible for administering employee benefits programs for over two million federal workers and their families. As part of my responsibilities, I negotiated insurance rates for the world's largest employer-sponsored health benefits program, covering almost nine million people. Georgians can count on me to put my experience to work for them.

"I am proud to join other America First candidates on the ticket in November who are fighting to save our country, which is why I will be supporting Vernon Jones in Georgia's 10th Congressional District. Like

As we pray for peace we must also vote to cast out any leader pushing for more war. Leadership is about learning from our past mistakes to prevent future human tragedies.

If true that USG is sponsoring (directly or indirectly) bio[weapons] labs similar to the W-I-V, depending on how deep the rabbit hole goes, we may need a total USG stand-down, and a public, line-by-line, program-by-program public reauthorizarion & reappropriarion.

This is exactly correct @Cernovich. That why I'm endorsed by Trump to beat Meijer in the primary here in MI-3. After siding with Pelosi and Biden to impeach Trump, Meijer is now attempting to pivot to an anti-Biden / anti-Dem position - but it won't work.

> **Cernovich** @Cernovich
> Interesting to see Peter Meijer (R), who voted to impeach Trump, get his ass chewed out by his new friends, because he's telling the truth

The establishment is trying to push us into a new war, without our consent.

I know what war is & war's cost. I won't vote for war or acts of war w/out defining the vital national security interest to my constituents & receiving their support.

Remember what President Obama's mentor, Saul Al1nsky, used to say:

'All communities are organized in some way. The job, therefore, of a community organizer is not to organize, but to DISorganize. That they might be re-formed.'

A somber warning.

We know better & we can change course. A war w/ Russia or driving Russia to the CCP will bring so much tragedy that our post 9/11 wars will pale in comparison.

Honor our fallen by learning from our past.

Zelenskyy was installed via a US backed color revaluation, his goal is to move his county west so he virtue signals in woke ideology while using nazi battalions to crush his enemies.

He was also smart enough to cut our elite in on the graft.

Our presence in Iraq is tactically & strategically foolish. We are in Iraq getting shot at by the Iranians to support an Iraqi gov we fund, controlled by the Iranians.

This is all due to our decades of stupidity.

Deprive Iran of funding & targets. Strike from afar as needed.

It's pretty simple, she's in civil clothes & clearly not speaking on behalf of the DOD.

We should be more concerned w/ the tools of the US intel community being turned against political rivals & a potential WW3 than we are about Tulsi's anti war stance.

This narrative is as fantastical as any of the other dominant ones about Iraq, on both the MEern and American sides. But it's gotten to the point where it is unassailable. Yet Iraq is the one true mirror by which Western mil/security elites can understand their present peril.

.@MittRomney, you have called me a 'treasonous liar' for stating the fact that "there are 25+ US-funded biolabs in Ukraine which if breached would release & spread deadly pathogens to US/world" and therefore must be secured in order to prevent new pandemics. Bizarrely, ...
